## Ex. 6 - Personal Privacy

**Subject:** The Time is NOW for Community Outreach and EPA testing in Dimock PA.....

What is left to be said or happen to get EPA to have an emergency community outreach meeting with [REDACTED] residents whose drinking water has been determined by DEP by Duke by Independent Labs to have been affected by shale gas activities through isotopic analyses. Please see the attached DEP INTERNAL DISCUSSIONS about the stray methane in Dimock. When can EPA meet with affected residents whose state (PA) is letting the industry walk away from accountability.

What date works for an EPA Emergency Meeting?

Sincerely, Rebecca Roter 267-733-5211
